

AGM 2021 - Hon Secretary's 2020 Report

Mr Captain, President and Members.

I would like to start by congratulating Mark Magee for what has been an extremely difficult golfing year as our Club Captain and thank him for his hard work throughout the year.

My thanks to our Interclub Team Captains and Council members who gave up a lot of their free time over the last 12 months to both maintain and continually try to improve Greenacres as a golf club.

The 2020/21 season was totally unprecedented and came as a major shock to everyone concerned at Greenacres Golf Club. On behalf of the Council and Members I would like to thank The Crawford Family, John Ross and all the staff for their hard work throughout the whole season and especially whilst we were unable to play golf due to Covid restrictions in the first lockdown the green staff continued to work tirelessly to maintain the golf course and again whilst we are now in the middle of a second lock down they continue to maintain the golf course and make improvements, in particular the white tee boxes on the 4th, 14th and 15th and also insert a much needed drain across the 9th fairway.

As I report every year the most important aspect of any golf club is its members, and we are no different in that we require the support of all our members both existing and new whether it be attending competitions or team matches when possible. I would ask that all members continue to support Club Captain Mark Magee, President Wallace Crawford, Junior Captain Keaton Morrison and all Team Captains as we ask them to continue in their roles for the 2021/22 season. I wish them all the absolute best of luck and hope that they enjoy and embrace all the challenges that lie ahead.

Finally, just to wish all members a successful and enjoyable year ahead.

Please stay safe....

Rab Blundell
Hon Secretary
